RAKO

RAKO

▶ RAKO IS AN ARTISTIC MOVEMENT BASED IN FIJI...IT WAS FORMED BY A GROUP OF ROTUMAN AND POLYNESIAN ARTISTS AS PART OF THEIR QUEST TO GAIN MORE INSIGHT, DEPTH AND KNOWLEDGE OF THEIR HERITAGE BUT WITH A FOCUS ON CREATIVE FREEDOM...TO RECAPTURE AND REVIVE ANCIENT ART FORMS AND STORIES, BUT WITH THE FREEDOM TO CREATE NEW WORK WITHOUT BOUNDARIES..

rako provides a space, a home and a community for the collectives' artists to feel supported and connected.

as navigators rotumans were always connected to other islands..

... the arts, symbology and stories of voyaging people were always represented through their work, but with most of our people now in cities the culture has changed

...our art represents that balance of your feet being rooted in your communities, but your minds and souls free to navigate and explore the unknown...

rako literally translated means to learn, or as a noun it means school.

rako is symbolic of the organic process of creative learning - listening, experiencing, collaboration, exchange and expressing this knowledge through movement, spoken word, imagery and music.

as we create we learn....

as we merge we discover...

as we know...we move...
